Protection

EQUITY

Access to
Mobility

Livable
Communities

CONGESTION

- Reduce person hours of delay by 20% compared to today

VMT

- Reduce vehicle miles traveled (VMT) per capita by 10% compared to today

EMISSIONS

- Reduce particulate matter by 10% from today
- Reduce carbon dioxide by 40% below 1990 levels by 2035

EQUITY

To Be
Determined

**High Occupancy
Toll / Bus**

Rail & Ferry

Conduct Land Use and Pricing Analysis

Possibly Select Preferred Scenario?

Continue Outreach on Equity Target

Ideas:

- Proximity and Access
- Public Health
- Affordability & Cost

METROPOLITAN
TRANSPORTATION
COMMISSION

Agency Consultation & Public Outreach Activities

- MTC Advisory Committees (May 3, 8, 9)
- Joint Policy Committee (May 18)
- Early Dialogue Workshops
 - Transportation & Three E Leaders (June 13)
 - Joint Advisors Workshop (June 25)
 - Regional Workshop (June 28)
- Partnership TAC & Board (June 18 & 29)

METROPOLITAN
TRANSPORTATION
COMMISSION

Three E Principles & Goals

Key Messages Heard

- “Fix It First” policy is priority objective
- Safety for bicyclists & pedestrians is critical
- Climate change drives visioning
- Particulate matter is a serious public health concern
- Aging population needs more attention
- Smart growth land uses should be advanced, but not at a cost of diverting funds from maintenance

Scenario Performance Assessment

Key Messages Heard

- Maintenance and safety not addressed
- Targets may be unachievable
- Equity target must address affordability and health
- Equity must address youth, seniors and persons with disabilities

Scenario Performance Assessment

Key Messages Heard

- Other ideas for investment packages:
 - Maximize VMT & emissions reductions
 - Optimize all transit modes
 - Group HOT lanes & express bus with freeway
 - Separate scenario for local transit
- Pricing impacts on low-income travelers should be addressed
- Use aggressive land use and pricing policies for sensitivity analyses

Next Steps

- July activities
 - Consult with MTC Advisors about equity target
 - Host small work group session to further define equity target
- August activities
 - Define scenario network definitions
 - Conduct Scenario Performance Assessment
 - Stakeholder workgroup meeting(s) to define “Equity” target
- September/October activities
 - Review preliminary outcomes with stakeholders/Commission
 - Present outcomes at joint MTC/ABAG Fall Forum
- End of October
 - Joint MTC/ABAG Fall Forum
